JUNE LETTER FROM THE EDITORS

June is here already, the Platinum Jubilee brought people together which is just what everyone needed.

We now look ahead to a good summer of celebration whatever that may be.

It is good to see the "What's On" growing and people getting behind the events, Beverley attracting people from far and wide.

We will enjoy the longest Day on 21st June giving everyone the opportunity to enjoy the fresh air, countryside and some of the walks or rides we have nearby.

As always we say to people "Small Change, BIG impact", use the Summer ahead to make a difference.

Enjoy the publication.
Have a great June.

Julian.

Happy June readers! It's about time for a change in the weather as summer will soon be upon us. What have you got planned in June?

Hopefully you're celebrating one of the biggest moments in British history with us... the

Queen's Platinum Jubilee! We've got a massive celebration planned right here in Beverley and there truly is something for everyone.

I'm looking forward to seeing the whole town come together and have a fantastic time, such a nice change from June over the past two years which we've spent a little differently.

As always, stay safe and have a lovely month.
Olivia.

ABOUT BEVERLEY

I run costumed guided walking tours of Beverley - you might have seen me at the Market Cross on Tuesdays and Fridays (I'm the one in 17th century costume). I used to be a tour guide with the National Trust, and now I enjoy showing people around the town where I was born.

In this regular column I explore Beverley's history month by month. Here we are in June already -

On 28th June 1643 Sir John Hotham decided that he'd had enough of the Parliamentarians, and changed sides - he was the Governor of Hull who'd refused entry to Charles I the previous year, marking the beginning of the Civil War. He was also MP for Beverley.

He managed to escape from the Parliamentarians in Hull and rode north, heading for his home at Scarborough just north of Beverley. The route took him through Saturday Market.

Unfortunately for Sir John, 800 Parliamentarian soldiers were on parade, led by Captain Boynton (who happened to be related to Sir John's wife). Captain Boynton recognised Sir John, and grabbed his horse's bridle.

Sir John was knocked from his horse, and taken prisoner. His son, Captain John Hotham, was also arrested.

They were taken to Hull, then from Hull by sea to London, and imprisoned in the Tower of London. Seventeen months later, they were executed on Tower Green.

Join me for guided walking tours through 1,300 years of history. Tuesdays and Fridays at 11am and 2pm. In July and August there's an early evening tour as well - book online and meet at the Market Cross at 6pm.

For more information and to book, visit aboutbeverley.co.uk or call 07775 173755.

MAYOR OF BEVERLEY MAKES HISTORY

On Monday 9th May 2022 at the Guildhall in Beverley, councillor Linda Johnson became the first Mayor to be elected for two consecutive years since Norman Dickenson (1996-97 and 1997-1998).

The Mayor of Beverley in her address announced her husband as her consort and Tom Astell as Deputy Mayor and went on to say, "What an honour it has been to be elected the 418th Mayor of Beverley, hope I have been able to promote Beverley as the most wonderful town anyone could possibly imagine to live, work and play in, with the best people, the best buildings, the best countryside and the best surrounding villages."

The Mayor continued to say "Beverley wouldn't be here without St John, who established the town as a place of pilgrimage and tourism. Last year we celebrated 1300 years since his death and enjoyed a weekend of socially distanced events. On the Sunday, at an Anglican service, blessed an oak tree, in commemoration of St John, with a further 1299 trees to be planted

around the town, 1244 of which were planted on the Archery Field last month".

Cheques were presented to Scope the Disability Charity. Scope provides an advice and befriending line for people with all kinds of life-limiting disabilities and to Hull and East Riding Breast friends. A donation of £150 was made to SSAFA in lieu of Christmas Cards - so a grand total of £1084 to three charities.

The Mayor chose the following charities this year - both are based on partnership working and enable beneficiaries to live their lives to the full. The first is Guide Dogs helping someone, an adult or a child with sight loss, to stay safe as they travel and maintain their independence. And Guide Dogs is based in Beverley!

The second is Open Doors based at Princes Avenue Methodist Church in Hull. Open Doors works with asylum seekers, refugees and migrant workers Open Doors helps all-comers navigate the system to rebuild their lives.

TRANSFORMING PRINCIPAL RETIRES

East Riding College Principal Mike Welsh retired at the end of May. Over four years in charge Mike oversaw a number of major developments. Most significantly, he led the College through what was described as an exemplary merger with TEC Partnership, securing its long term, sustainable future.

Mike's tenure has also seen significant increases in student and apprentice numbers as well as the construction of a brand new Institute of Technology at the College's Flemingate campus.

The Institute is part of the Yorkshire and Humber IoT, a collaborative partnership with several other colleges - and one of only 12 established by the Government in 2020.

In the last four years the College has seen growth in its funding income, putting it in a very sound financial position and allowing it to expand its estate at Flemingate, which is now at capacity.

Under his leadership, the College has been recognised as a high performing provider by both the QAA (twice) and OfSTED; continuing to enhance high levels of quality and standards.

One of Mike's passions was to invest in a values-driven community focus. In fact he showed his commitment to the college's communities from the off, whether it was taking part in a cook-off at Beverley Food Festival, welcoming guests at the open air cinema to celebrate the Bridlington campus' ten year anniversary, representing the FE sector on the Humber and East Yorkshire LEP Employment and Skills Board, or founding and chairing the Humber Principals' Group.

Mike said, "Like everyone else, the past couple of years has enabled my family and I to focus on our long-term future. We have made Beverley our permanent home and look forward to having more time to enjoy all that our wonderful region has to offer."

Kerri Harold, Chair of Governors at East Riding College said, "We wish Mike very well in his retirement and thank him for his huge contribution to the sector as a whole, as well as for his transformational work at East Riding College. He leaves us in an excellent position to move forward with exciting plans for further growth and to meet the challenge of delivering future skills."

WOLVES HAVE DRAMATIC CUP TRIUMPH

It seems to be the way at all levels of football that cup finals are won by penalty shoot outs, it's no different at grass roots level when a local football team from Beverley sealed a memorable season with a dramatic penalty shootout win to lift the Under-12 Jubilee Cup.

AFC Tickton Wolves showed nerves of steel to beat Hessele Sporting Meteorites 4-3 on penalties

after an absorbing 2-2 draw at the Roy West Centre, in Inglemire Lane, Hull.

Wolves keeper Harry Cuthbert was the star of the shootout, saving two spot-kicks to spark wild celebrations among friends and family watching from the sidelines. It came after captain Kasper McMath, William Rawlings, Fynn Kemp and Samuel Richardson converted from the spot.

Penalties were needed after a pulsating 60 minutes of normal time, with both teams giving their all. Head coach Stephen Rawlings said: "It was a fantastic day with some iconic moments that will live long in the memory.

"This is something that can never be taken away from them - they go down in the history books as Under-12 Jubilee Cup winners."

WHAT IS THE JUNE SOLSTICE?

This year, the June Solstice falls on Tuesday June 21 and will mark the start of summer in the Northern Hemisphere.

Also known as the summer solstice, it is the longest day of the year and occurs when the sun travels along its most northern path in the sky. For those in the Southern Hemisphere, it means the start of winter as it is at the opposite when the sun is at its lowest point in the sky.

The word "solstice" comes from the Latin words sol meaning "sun" and stitium which means "standing." On the summer solstice, the sun's path stops advancing northward each day and appears to "stand" still in the sky before going back the other way. It is the shortest night of the calendar and celebrated as the "longest day", meaning the longest period of sunlight in the year. The day does not have the latest sunset, however, nor the earliest sunrise as that depends on where you live.

The timing of the June solstice is not based on a specific calendar date or time and won't always happen on the same day, which is why currently it shifts between June 20, 21, and 22. The day completely depends on when the sun reaches its northernmost point from the celestial equator. When the sun is at its highest point in the sky this month, you'll notice that your shadow is the shortest that it will be all year.

Throughout history, the summer solstice has been recognised as a significant time of year in many cultures which have marked it with many festivals and rituals such as bonfires and Maypole dancing. The summer solstice marks the beginning of summer in accordance with the seasons and lasts until the autumnal equinox, which is usually September 22 or 23 in the Northern Hemisphere. Make sure to write a list of activities you want to plan for the summer now it's here. Maybe you'll take a sunrise hike, or perhaps you'll enjoy sun themed arts and crafts with your kids, there's lots of ways to enjoy the sunshine now it's here to stay for a while.

BEVERLEY BUILDING SOCIETY GO THE DISTANCE

On Friday 20th May, Beverley Building Society CEO Janet Bedford cycled the last 12.6 miles to reach a 422 miles Charity Exercise Bike Challenge target.

The distance was the equivalent of Beverley Saturday Market to Buckingham Palace, all in honour of the Queen's Platinum Jubilee Anniversary.

The team raised a phenomenal total of £665.95 for the Beverley Cherry Tree Centre and we would like to say a huge thank you to everyone who generously donated to this important cause, you are helping to change the lives of vulnerable people!

STOP PRESS!

MINDFULNESS AND HYPNOTHERAPY

Earlier this year I was asked to do a presentation about what I do as a hypnotherapist and mindfulness teacher and how I can help people.

After what has been a strange and unusual two years, I wondered whether there had been a change in why people choose to consult a hypnotherapist and lo and behold, I came across some research which gave the top five reasons people seek help:

- 5) Weight Loss
- 4) Smoking Cessation
- 3) Fears and Phobias
- 2) Self Confidence
- 1) Anxiety & Depression

So, having considered the above, I believe that this is a good reflection of the issues I have been helping people with over the last year or so.

Certainly, I have had an increase in people seeking help for needle phobias and how to overcome that "feeling of impending doom" - to which the simplest response would be to turn off the TV and social media and go for a walk or sit in the garden with a book but certainly, hypnotherapy is a very good way to access positive thoughts and feelings and rid yourself from anxiety and depression.

Mindfulness and hypnotherapy can help to get back our confidence and love for life and I've included below the comments from a client who came to me a couple of weeks ago to overcome her flight phobia (in just one session).

"I just wanted to say thank you again for the hypnotherapy session on Tuesday. I had been feeling quite tense and a little anxious before, but came out feeling much lighter and more positive and we ended up talking about planning a trip away. It seemed very natural and I didn't feel at all anxious".

If you're curious about mindfulness, every Monday evening I run an online mindfulness session free of charge which offers a wonderful opportunity to take time out for yourself.

If you'd like to join, drop me a message/e-mail or give me a call and I'll send the zoom link to you.

For more information and details on further techniques including hypnotherapy, visit www.francesdunning.com or contact me, Fran Dunning on **07973 819867**. I can support you to change your thinking and be that friend to talk to.

MKM BEVERLEY, YOUR HOME FOR KITCHENS, BATHROOMS, LANDSCAPING & JOINERY

We know a home is more than bricks and mortar, it's where memories are made, it's cooking together, a space to relax after a hard day's work, and a place to play outside. So, while you focus on turning a house in to a home, you can leave the bricks and mortar to us.

Get to know our name as quickly as we will yours. Here at MKM we pride ourselves on offering a first-class service, on first name terms. Our team of local experts have years of experience and are on hand to offer help and advice every step of the way.

Give yourself time to relax in our BATHROOMS

If you're looking to renovate your bathroom, be sure to visit our in-branch showroom or pick up one of our handy brochures. If you want to get started on your new bathroom, our dedicated specialists can help bring your ideas to life, we'll understand what you need, like and love and create a design bespoke to you.

Cooking gets more creative in our KITCHENS

Buying a new kitchen is one of the biggest and most exciting home projects you'll undertake. Whether its contemporary or modern, every kitchen is unique, and your buying experience should be too. Our dedicated in branch kitchen specialists will listen to what you're looking for and design a kitchen that meets your expectations and exceeds them.

Create your perfect OUTDOOR SPACE

Explore our wide range of landscaping materials at MKM. From paving and driveways to decking, outdoor furniture and all the finishing touches - we've got all the products you'll need to create your perfect outdoor space. With our free local delivery service, you don't have to worry about getting your supplies where you need them.

Quality JOINERY from doors to floors

From walls and floors to windows and doors, we have industry leading products available in all the latest styles, colours and finishes. We also have all the extra's you'll need including timber, handles, latches & hinges to suit any budget. Speak to one of our specialists in branch about finding the right product for your project.

Supplies to DIY for

At MKM, we've got everything you could possibly need for your next DIY project, large or small. Including stains, paints, adhesives, fixings and more. Visit our branch on Swinemoor Lane to see how we can help.

YOUR LOCAL INDEPENDENT CINEMA

JOIN US FOR SOME GREAT FILMS AND BIG EVENTS THIS SUMMER

JURASSIC WORLD: DOMINION

Dominion takes place four years after Isla Nublar has been destroyed.

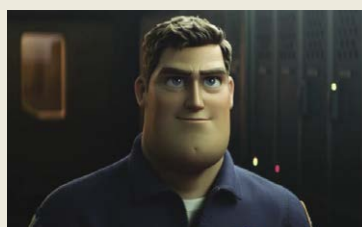

Dinosaurs now live and hunt alongside humans all over the world. This fragile balance will reshape the future and determine, once and for all, whether human beings are to remain the apex predators on a planet they now share with history's most fearsome creatures.

LIGHTYEAR

The sci-fi action-adventure presents the definitive origin story of Buzz Lightyear, the hero who inspired the toy.

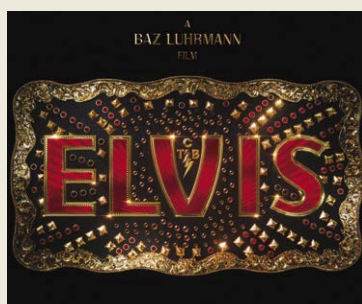

Lightyear follows the legendary Space Ranger after he's marooned on a hostile planet 4.2 million light-years from Earth alongside his commander and their crew.

ELVIS

From Oscar-nominated visionary filmmaker Baz Luhrmann comes Warner Bros. Pictures' drama 'Elvis', starring Austin Butler and Oscar winner Tom Hanks.

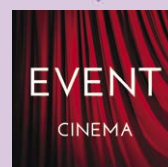

The film chronicles the life and career of singer and actor Elvis Presley, from his early days as a child to becoming a pop star and movie star, as well as his complex relationship with his manager Colonel Tom Parker.

With a high paced setlist guaranteed to get you singing and dancing, they will leave you wanting more.

Sunday 25th September, 7pm -

Greatest Songs From the Movies

The show promises an unforgettable mix of famous film themes and songs from 'Lawrence of Arabia' to 'Star Wars', 'James Bond', 'Jurassic Park' and 'Harry Potter' plus many more favourites.

BROOK TAVERNER - SUMMER IS HERE!

The season synonymous with sun, sea and bright blue skies is upon us. No more woolly hats, no more windscreen scraping before a commute - now is the time for lounging, catching some sun rays and getting out into the world!

A deluge of events is just around the corner, and whether you're partial to Henley, Wimbledon or Ascot, we have everything you're looking for and more to get you ready!

Though dress codes are certainly important and should be adhered to, that's not to say that bringing your own personality to your outfit ever hurt anyone!

This is perfectly surmised with the Johnny Denim Blue stripe jacket. When looking at it, the Johnny instantly has a boating appeal. However, it's done away with the bolder stripes of yesteryear and embraced a much more subtle approach.

You can wear this jacket with a rainbow's worth of

trousers, given the Johnny's versatile base tone and the colour of its stripes.

Speaking of colour, a new addition to the Brook Taverner range has injected a heavy dose of summery radiance into the collection.

The Jason trouser collection is a stylish experiment in texture, featuring a micro print that lends the trouser a slight lustre.

The result of this? Legwear that looks luscious in the sun, and complements any outfit with confident aplomb.

Wherever the summer takes you, you can rest assured that your trousers will move with you! This is thanks to a hint of elastane in the fabric, allowing for accommodating flexibility with every step.

Topping an outfit off with a colourful, crisp shirt is like icing on a cake. And what better shirt to do that with than the colours of the season shirt? This seasonal must-have pulls together all the best shades in this season's palette, creating a harmonious fusion that goes with anything!

Crafted from a cotton melange slub, this particular shirt offers a softer, more relaxed drape - ideal for relaxed parties and barbecues in their dozens. It's the kind of shirt that makes summer worth waiting for.

Whether you're new to Brook Taverner Beverley or a seasoned veteran, we look forward to welcoming you through our doors once again!

Don't forget about our fantastic multibuy offer of any 4 shirts for £110, and our unbeatable loyalty scheme both in-store and online. We hope you enjoy whatever you have planned this summer, and that you look your best whilst doing it!

Many thanks,
Lee and The Brook Taverner Team.

Our 2022 Spring/Summer collection is now in store

BREWERY TOURS ARE BACK!

Hands up if you have been on an Atom Brewery Tour before? If your hands are up, then then you will already know how much fun they are and I needn't say much more.

If not, then let me explain: brewery tours offer you a fun and insightful look into the brewing process and where the beer you drink comes from; they also allow you the opportunity to see who we, as a business, are and what we're all about on a much more personal level.

Unsurprisingly we love to talk about our beers, our bars and, of course, the very heart of our company: our brewery.

Ever since we first launched them, our brewery tours have been a big hit: popular amongst local Atom aficionados and general beer lovers alike. After a brief hiatus, and after no shortage of popular demand, we've finally brought them back!

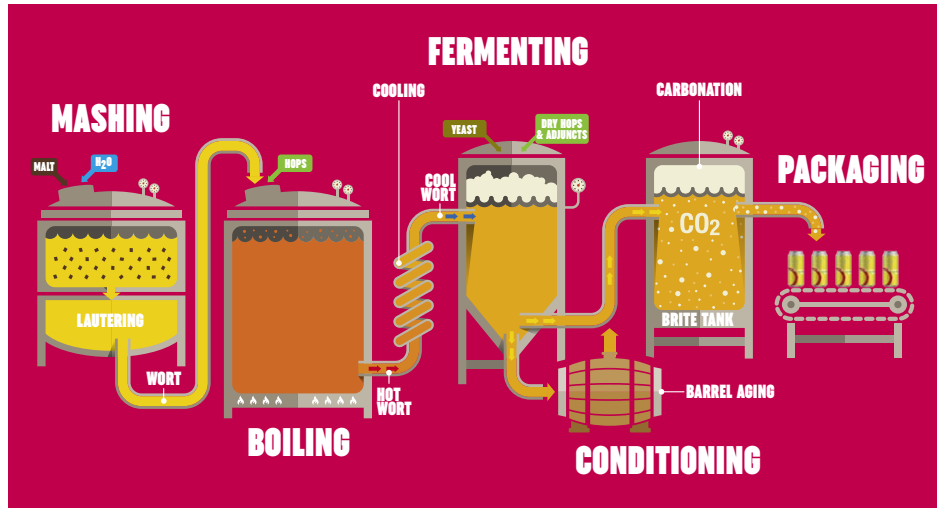

Our tours last approximately 1 hour and with a beer on arrival will be starting off as they mean to go on! Teas, coffees and soft drinks will also be available for anyone seeking an alternative.

During the tour we'll invite you to immerse yourself in the beer making process as we guide you around the different tanks, vessels and pieces of equipment we employ to create our core range of best loved beers, as well as our unique range of one-off brews which always leave you asking for more.

There are, of course, also plenty of tasters available throughout the tour.

With a maximum of 20 people attending each tour, you can guarantee an intimate and personal experience with plenty of opportunities to ask questions, spark discussion and get to know our brewery staff. We hold our brewery tours in our working brewery on Sutton Fields Estate, Hull.

To book tickets please visit our website www.atombeers.com, alternatively if you have any queries email Becky at becky@atombeers.com for help.

HUMBER SPECULATIVE FICTION RETURNS TO BEVERLEY

An event celebrating speculative fiction in all its forms is to return to Beverley with a new venue, this July 24th. The relaxed gathering will take place at The Kings Head in Saturday Market, Beverley, and it is hoped to be their permanent home.

Supported by The British Science Fiction Association, and The British Fantasy Society, Humber Speculative Fiction paused regular get togethers until recently.

Fans of Science Fiction, Fantasy and Horror genres will be pleased to see events are back on the calendar from July.

With an aim to promote the genre the social event enables fans celebrate their favourite

authors, discover new reads and meet others with shared interests, so readers, authors, editors, reviewers, bloggers, creators and dreamers are all welcome.

"I'm pleased to return to Beverley." Organiser, Shellie Horst said, "and we've missed conversations with our friends."

This time, The Kings Head will be able to impress with their fabulous offering of food and rooms for our guests to stay in."

Past guests include Ramsey Campbell, Ren Warron, R J Barker and Anna Smith Spark. But with their first event since the pandemic, they're promoting the substantial local talent. Their guests will be Science Fiction and Fantasy editor, author, Susan Oke and fantasy author Carl F Northwood. Both authors are based in the East Riding and will be reading from their work and answering questions.

Susan Oke has had over 15 stories published including 'Blood Rose' in award winning Newcon Press' anthology of Alien Fairy Tales. While fitting writing around her days as a private tutor, Susan is also responsible for editing the British Science Fiction

Association's Review and is finalising Crystal Flight, a Science Fiction novel.

Representing the quality that can be found in self-published novels, Humber Speculative Fiction's second guest is all too fond of Dungeons and Dragons, and leafy east Yorkshire villages.

Carl F Northwood launched his first novel, The Darkness Rising in June 2021. The second book of The Maingard Chronicles has just been released.

Organiser, Shellie Horst said, "Humber Speculative Fiction has always been a space to explore the depth of genre talent in the area, so it's a real honour to have Susan and Carl as our first guests since lockdown."

The relaxed events are designed to celebrate the fiction that brought fame to such as G R R Martin, and Arthur C Clarke and does not profit from any of these events. Humber Speculative Fiction are working with the British Science Fiction Association and the British Fantasy Society to bring more authors from the genre.

Anyone wanting to attend can book a place by email: humbersff@gmail.com going to humberspeculativefiction.co.uk, or on their Facebook page.

THE FERGUSON FAWSITT - EVENT SPACE

The Event Space opened with the Folk Night on the 25th May at The Ferguson Fawsitt, and they are looking forward to entertaining more people in many different ways to make full use of the Event Space.

Since the Ferguson Fawsitt opened its doors to everyone back in March, they have listened to customers and are moving forward with their suggestions.

Allen Slinger, owner of the Ferguson Fawsitt, said: "With a good summer ahead the Event Space is ideal for people to book for a variety of events, whether that is a business event, a birthday or retirement party, the space can be adapted to suit your needs".

The event space has been refurbished in addition to what the Ferguson Fawsitt has to offer already, which is a cosy bar space, extensive and varied dining opportunities, a cafe for afternoon teas, and dog friendly areas so even your best friend can enjoy a drink.

THE CHALKBOARD LADY

We are fortunate to have a vast array of public houses across the country. As a country built on tradition and traditional values we sometimes struggle with change, but change is an important part of progression, and progression is also about keeping everything up to date with fresh ideas.

In the Yorkshire region, landlords, public houses and breweries are fortunate to have "The Chalkboard Lady" to help fulfil the needs for change whilst maintaining traditional values.

Mandy went to Art college to train as a sign writer and ticket writer as it was called learning her trade working as a YTS with a Supermarket change.

She then worked for a graphics company that did work for B&Q and began working on graphics, sign writing and producing point of sale graphics for Focus, Boyes to name a few, before getting her first job with a Public House The Bay Horse at Cherry Burton.

The door opened for Mandy, and from the initial work in Cherry Burton she went on to deliver murals and sign writing for Mansfield's, Punch and Landlords across the county.

However as times change so do requirements, and so Mandy researched a variety of products to use rather than paints and discovered water based pens. These pens allowed her more freedom and expression on blackboard paint and took her designs and capabilities to another level, adding longevity and versatility to her craft.

Mandy has kept a good working relationship with her clients over the years and as they have moved locations they have kept in contact to put the personal touch on new ventures, creative works of art and subliminal messages to put a smile on people's faces.

As a chalkboard artist her work varies from a simple one liner to an elaborate mural, all of which keeps Mandy's creative spirit alive. Mandy mentioned one of her favourite written quotes she has used for a client was "Pilate, I thought you said Pie and a Latte!"

Mandy recently finished transforming the interior of the Ferguson Fawsitt in Walkington for the new owner Allen Slinger, and Allen highly recommends the work that Mandy does.

Allen commented: "Mandy just understands the brief, delivers time after time".

So, if you are out and about around the area, keep an eye out and enjoy the work of "The ChalkBoard Lady".

You can find Mandy on **Instagram:** [chalkboard_lady](#) and **Facebook:** [@mandymiller65](#)

I'VE BEEN THINKING... SAYS COLIN RAYNOR

...thinking about a phrase that an old Methodist Minister friend of mine would often quote.

"The poor are a bit like dandelions, they will always be with us". As I looked out of our house window, a couple of days after I had spent time cutting the grass and getting rid of all those lovely coloured "weeds", there they were, back again, and there seemed to be more of them.

Now I know that biblical phrase, which my Minister friend had ever so slightly misquoted, can be quite controversial and subject to various interpretations but it is a fact that I have found in the current media so many examples of the ever widening gap between the rich and the poor in our present day society. Some so bizarre that I questioned if they were part of that mysterious fake news we hear so much about.

One item concerned the auction of a football shirt, worn in 1986 by Diego Maradona the Argentinian footballer, when he scored a goal against England, which everybody watching knew should not have been allowed.

For football fans this has always been one of the worst injustices ever to take place in a football match. If you have no interest in the game of football so be it. But this 36 year old shirt (and there was some question of it really being "the shirt") was sold at auction for £7.14 million pounds recently.

It reminded me of a similar incident that took place in November 2021, in the midst of the Covid pandemic, when the people of this country raised over £40 million pounds for the Children in Need appeal. In that same week a painting of a Coca Cola bottle, by Andy Warhol, who had died in 1987, some 34 years previously, was reported to have been sold for £43 million pounds.

Does that kind of thing make you angry? As I get older I like to think that I can resist getting really angry about such matters if for no other reason that I consider anger a "wasted emotion", that achieves nothing other than upsetting me as I realise this is the world I now live in.

There have been many examples over the past year when some of the unbelievable behaviour of our elected leaders has stretched incredulity to the extreme.

At such times people could be forgiven for allowing their anger to overwhelm them and not

see the bigger picture. Amidst all the furore of many people living on very limited income, and benefits distributed in a manner that brings the shadow of the Means Test and the Poor Law to mind, the people of this country have shown themselves to believe in the statement "I am my brother's keeper" and have gone out of their way to help those less fortunate than themselves.

During this month of June we shall be celebrating the reign of a monarch who has served her people in such a glorious way that those of us who have lived through it will always remember that this Elizabethan age, which may be coming to an end in due course, was a good time to be alive.

The dandelions will no doubt be still with us in the future but I feel sure that those who come after us will care no less for them than we have tried to do.

IN MY VIEW... IT'S ALL IN THE DETAILS

June has arrived, folks. The weather is on the up, the days are longer, beer gardens are the place to be, and there is a general crackle of good vibes in the air. Add to this the Queen's 70th Jubilee celebrations and it makes for a month packed with fun activities - not to mention photography opportunities!

Bearing this in mind, I thought tips on how to capture the details and give your photographs the royal treatment would be a good topic this issue.

With any celebratory gathering, there is always room for the customary group and family shots. Quite right too. However, if you want to capture the essence of what is going on, but from an angle that is more creative, I

firmly believe that less is more.

I really like to try to capture details that are symbolic of what is taking place. For instance, if you are planning on indulging in an afternoon tea, rather than taking a picture of the whole thing, try experimenting with different angles and zooming in on particular items.

Alternatively, focus on other elements that give a sense of the sort of atmosphere that was there at the time.

Using a shallow depth of field (in this case f2.8) helps to create a dreamlike background, enabling any foreground elements to stand out. This is a good and common technique used for portraits and can generally be achieved with

modern day smart phones. Give it a go, and by all means share your photos with me. I would love to see what you do!

Enjoy your Jubilee celebrations, and happy snapping!

WHITE RABBIT - HOW TO KEEP BUSY UNTIL THE HOLIDAYS

After Easter is classically a quiet time for a chocolatier; everyone is full of chocolate, the kids go back to school, and the light evenings put you in the mood for something a bit more summery, so, while times are slow we make the most of it and have been doing a super-drive of innovation to try and tempt people with our treats.

First up, for the Jubilee we are celebrating with our own creation: our 'Coronation Crown' chocolate, based on Coronation sauce which was invented for Queen Elizabeth II's coronation.

Mango, apricot and masala spices in milk chocolate, finished off with a crown decoration, make a divisive little treat you just have to taste! You can grab it loose at our counter, in our assorted chocolate boxes, or we are serving it alongside our unique platinum Afternoon Tea.

We haven't forgotten that not long after the Royal celebration is Father's Day (Sunday 19th June).

We have our chocolate tools, edible greetings cards, and lots of limited edition flavoured bars and truffles we think Dad's will love.

Whether it's football, fixing things, a pint, or a cup of coffee, we have the chocolate version of your Dad's favourite hobby guaranteed

to keep him happy for the day. With cost of living in mind, we have put together brand new packages that can fit through your letterbox, meaning these can be sent 1st or 2nd class in the post and we have passed on the savings with free delivery.

We have put together selected products, including bundles of our many limited edition flavoured bars created just for this summer, so you can feel a little less guilty about treating yourself to something unique.

Talking about limited edition flavoured bars: along with classic flavours, such as Billionaires Shortbread (caramel & shortbread in milk chocolate), we have worked alongside Darkwoods Speciality coffee roasters in Huddersfield to create 4 unique chocolate bars with 4 unique blends of coffee, each one showcasing the divine flavour notes of super premium coffee. These complement our range of Summer-inspired truffles which are now at our counter waiting to be enjoyed.

And if leaving the house to get to our café is still a little much at this time we have just got ourselves onto Deliveroo so you can get our café treats and some items from our shop delivered directly to your door.

To celebrate, we have put together brand new waffle recipes, as well as new cookies and brownies so we have lots of familiar goodies but with the signature White Rabbit hallmark of quality.

For those that can still make it down to Dyer Lane, keep an eye out for our new Ultra Desserts coming soon. We are putting together 4 amazing desserts which will really show off what we can do as chocolatiers and will be must-haves for special occasions for chocolate-lovers.

Imagine one of our chocolate stiletto-heeled shoes, decorated to perfection with ruby shimmer, with Yorkshire-made gelato, fresh strawberries, white chocolate drizzle, chocolate cookie crumble, and effervescent strawberry pieces which sparkle on your tongue.

Our Ultra Desserts will be an experience in and of themselves, making stunning pictures and even more stunning eating! So we think we have enough to keep us busy for now, and maybe we have even tempted you into a little treat.

Things have been a little quiet since Easter, so if you are craving something sweet hop over for a White Rabbit welcome and a taste of luxury.

HOP ON DOWN TO

WHITE RABBIT

— for handmade, quality treats —

A taste of wonderland...

LET'S TAKE A TRIP TO NORTH CAVE & IT'S NATURE RESERVES

For many of us North Cave is a village we drive through as we rush west. It is, however, well worth exploring, with its fine period buildings, beautiful stream and two fabulous nature reserves nearby.

It is on a regular bus route from Hull, and one direct from Beverley (eastyorkshirebuses.co.uk) - the 10 mile drive via Walkington is a pleasant one.

This is a great time to visit as you may catch the last of the fantastic display of bluebells in the woods at North Cliffe, as well as its abundant bird life at the Wetlands.

There is on street parking in the village and a handy car park by the play area, just across from the striking church. A very nice short stroll can be had around the village streets, which

have many attractive homes. It has a fine pub, well-stocked shop and a fish and chip shop to tempt you.

It is especially pleasant to take the path over the stream on Church Street, passing the lovely restored mill house. From here you can double back to the village and perhaps view inside the church, if you are lucky like me, I once got the key from the vicarage.

It is a short drive round to the fabulous Wetlands Nature Reserve. We were pleasantly surprised on a recent visit that access and parking are free.

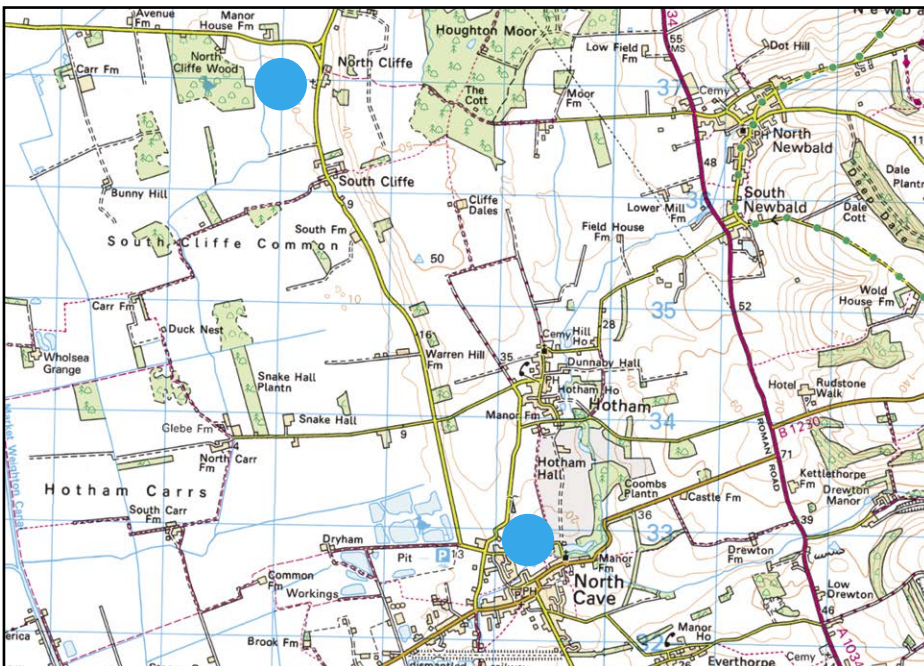

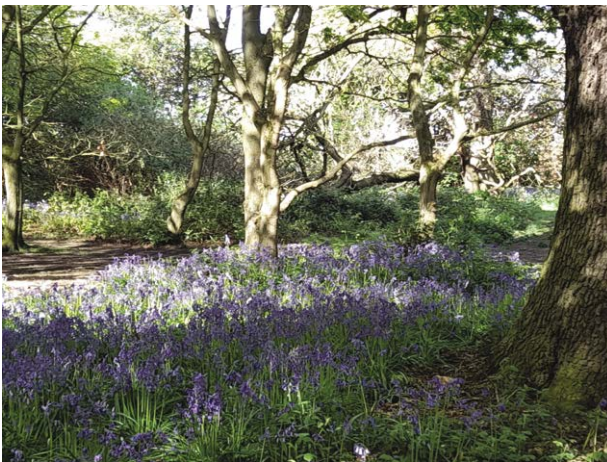

These former extensive gravel pits are a joy to wander on a network of paths with a series of hides and benches. They are the work of the most commendable Yorkshire Wildlife Trust.

Over 270 bird species have been seen there, including bittern, Egyptian geese, egrets, and my personal favourite, cormorants, with their amazing

wing display. The reserve has excellent paths, toilets and a very good cafe/kiosk, serving good value food and drink. It really is a lovely place to get closer to nature.

Not too far away, only a 2 mile drive along the minor road towards Market Weighton, brings you to the small village of North Cliffe.

Turn left here along Sands Lane, where you will find parking spaces adjacent to another YWT reserve: North Cliffe Woods.

Here are 33 hectares of fine woods and wetland areas with over 3 kms of paths. The sense of peace there is most refreshing. May is the best time to see a stunning display of bluebells, but they may linger into June, and the woods are always great to visit.

We drove back to Beverley from here, on an especially nice rural route, via Sancton, passing the impressive Georgian mansion of Houghton Hall - joining the A1079 back to town at Arras Hill.

Ian Richardson.

WILL YOU BE KIND AND HAPPY?

Finland and Denmark are, according to the 2022 World Happiness Report the happiest countries, with the UK 17th on the list.

The report looks at various factors including social support, generosity, life expectancy and the freedom to make choices. The report shows a strong correlation between kindness and happiness. Individuals that engage in random acts of kindness are generally happier and more compassionate.

What can we all do to promote happiness and kindness? Every day there are opportunities to help others, do random acts of kindness and exceed people's expectations. A great starting point is to simply smile more!

If you have never read it, I suggest you look up Spike Milligan's poem "smiling is infectious". It is! Smiling makes everyone feel better, almost as good as laughter, which is the "best medicine".

Acts of kindness may include helping a work colleague with a project, doing the dishes out of turn or making extra time to be with your family. Another idea is to send a thank you note, handwritten. Many of us were brought up to send these after our birthday and at Christmas. Now a quick text or email seems the norm. A thank you note is more thoughtful and appreciated. Of course, you could send one if you receive a random act of kindness.

Please try the above, you may like it and it could become a fabulous habit. If we all do this Beverley and the world will be a happier place to live in.

Please send a smile to dave@eastridingwills.co.uk

LFA T'AI CHI

Sheena Judge teaches the LFA (Lee Family Arts) style of T'ai Chi.

Master Chan Kam Lee brought the Lee style to the UK in the 1930's. When Chan Kam Lee died his student, Master Chee Soo dedicated himself to preserving the knowledge he had gained. When Chee Soo died in 1994 the current Master, Sheila Dickinson, established the LFA (Lee Family Arts) to make the arts available to all, following Chee Soo's teaching and to promote health and wellbeing.

Sheena Judge studied and gained her instructor level belt under Chee Soo, and subsequently became a Senior Instructor with the LFA.

The benefits of T'ai Chi:

- T'ai Chi is a 3000 year old health program designed to help you understand how your body works and how to help overcome problems.
- Practising T'ai Chi works the whole body without strain. It helps to keep the joints flexible and aids sleep. Learning a new skill exercises the memory and mind.
- We don't have to accept that as we get older we cannot do the things we did when we were younger. T'ai Chi works the whole of the body and can help us stay active and maintain flexibility and fitness.
- Classes are focused on the health benefits of T'ai Chi. They are not Martial or competitive and students are encouraged to work at their own pace.
- Classes are fun and friendly and are suitable for all levels. Beginners are welcomed.
- There should be no strain when practising T'ai Chi. Students are encouraged to only do what they are able. Where necessary exercises are adapted to suit the individual's needs.
- In classes Sheena teaches the T'ai Chi Form, which is the basis of all the disciplines, and breathing exercises.

The LFA has a website at www.lfataichi.online

NAVIGATION WEALTH MANAGEMENT - LETTING YOUR HEIR DOWN?

Britons are ignoring estate planning tools that could help them to pass on more of their estate to the next generation.

Over recent years, property inflation and rising asset values have combined to push a higher proportion of estates over the nil-rate band for Inheritance Tax (IHT).

The residence nil-rate band helps to a degree, but with the IHT threshold frozen at £325,000 per individual, and government receipts still rising, IHT is not a tax just for the rich - or even moderately wealthy.

Despite the fact that more estates are paying IHT, there are ways to prevent families paying over the odds.

For example, those with sufficient assets to trigger an IHT liability when they pass away could use the exemption which allows anyone to give away up to £3,000 worth of gifts each tax year without them being included in the value of their estate.

However, a lack of awareness about what does or doesn't form part of an estate could result in their families paying more IHT than they need to.

Another way to minimise the impact of IHT is to take out a 'whole of life' insurance policy.

This pays a lump sum on death, and when the policy is written in trust, the pay-out can help offset or eliminate an IHT bill.

Heir care

Whilst inertia and ignorance of estate planning is good news for the Treasury, which relies on it to ensure its tax receipts, the widespread lack of knowledge will worry many potential heirs.

But taking the appropriate advice can go a long way to alleviating those concerns.

A financial adviser can help families with the transfer of wealth in an orderly and

tax-efficient manner, establishing trusts, life insurance and so on, while also ensuring that the person who is arranging their estate has enough income to maintain their normal standard of living.

With the right advice, more estates could be removed from the grip of IHT and bereaved families could be spared the extra heartache of paying unnecessary tax.

To receive a complimentary guide covering wealth management, retirement planning or Inheritance Tax planning, contact Navigation Wealth Management on **01482 379504** or email navigationwm@sjpg.co.uk

Just ask

Making the right decisions can be stressful at the best of times, but we are here to help. Whatever's on your mind, just ask.

MAKING FATHERS DAY SPECIAL

Have you been looking forward to spending some quality time with your dad this Fathers Day and want some ideas on how to make the day extra special? Here are some ways you could make a new Fathers Day tradition.

Book an experience day

If your dad is someone who doesn't see the sentimental value in gifts or simply doesn't enjoy material gifts, why not do something fun for a gift. Experiential gifts fall into numerous categories such as adrenaline, racing and driving, casual dining, attractions, travel, music and more, so there really is an experience day for every dad. One for both kids and adults, an experience day offers both you and your dad the chance to have a new adventure. Plus, it's something you'll remember and talk about for years to come.

Shop local

Fathers Day is a brilliant opportunity to have a day out in Beverley and support local businesses. Online shopping can be daunting and cause stress in case you have to return something, but by shopping locally you'll see a unique range of gifts available nowhere else. You'll be inspired by local creatives and get your dad the perfect gift.

Learn his family's history

Have you ever had that realisation that you don't actually know much about your dad's side of the family? And perhaps neither does your dad? Why not make this Fathers Day the one you learn about the past and discover together the origins of your family name? You never know what you might learn!

SHORT STORY BY MALCOLM J BROOKS - DANGER IN A FOREIGN LAND

I hung on for dear life. All around people did the same. Everybody seemed to be shaking with fear. Foreign voices shouted in anguish. I couldn't understand what they were saying. Were they in pain or scared for their lives? I couldn't tell.

I was holding on with all my might as if it was a matter of life or death. Both my hands held above, white with the strain placed on them. Someone behind me was pushing me forward as if they wanted to push me over the edge.

A woman screamed somewhere behind me and pushed past me, rushing to a place on the left. The people seemed to stop shaking for a while. Then they started again, getting more violent by the minute.

I was beginning to find it hard to breathe. Masses of human flesh pushed me into an impossible space. I admit it made me feel very afraid. The air felt and tasted stale and smelt rancid. I felt like a captive, locked in a cell from which was no escape. My breathing grew shallow. The pressure on my chest was frightening. I began to panic.

The noise was deafening with its regular, monotonous beat, interspersed by shouts that I still could not understand.

As I jerked violently from side to side, I noticed the ancient frame of a wizened old man standing next to me to my right. He was in the same precarious predicament as I was, but possessed a wiry strength to hold on in the same way as I did. As I looked at him, he smiled a toothy grin. It was a mass of broken, discoloured teeth set in a face of wrinkles. Strangely, this calmed me a little. He nodded as if everything that was happening around us was something with which he was used to dealing. His frail body swung from side to side. It certainly was not like anything I had ever experienced before!

Suddenly, I felt myself falling. I fought to stay upright using all the strength I had left. Everybody lurched to the right and then to the left. I felt like a captive slave at the beck and call of some mysterious force.

I glanced to my left. I noticed a young school girl crushed like me in the same press of human flesh. I expected to see terror etched on her young face but to my surprise, it was another smile! Her head nodded in a sympathetic acknowledgement that she knew what I was going through.

As suddenly as the noise and shaking had arrived, it stopped. People around seemed to relax from the torture they had endured.

People passed me by in excited chatter and the young girl smiled with brown, shining eyes, which seemed to light up as if she recognised me. She dropped her head coyly and, in faltering English, whispered 'Goodbye'. She then vanished from my life, carried on a wave of escaping humanity.

The air became fresher and less rancid as I stepped forward onto the hard concrete. I breathed a heavy sigh of relief.

A journey on the Tokyo underground is not for the faint hearted!

Malcolm J Brooks is the author of the Eva Trilogy, and the novels 'Waiting in Line' and 'Living with Certainty.'

POEM BY CLINT WASTLING - THE NEMEAN LION

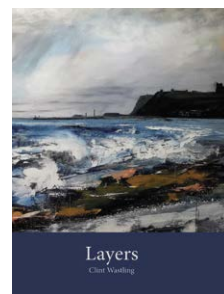

"Look Hercules," said the lion,
"No good will come from killing me,
maybe you could pretend,
wear fake fur -
we Nemean lions are rather rare.
My golden mane is impervious to blows
besides I'm quite partial to this coat of mine.

Careful your physique looks rather weak,
I expected Arnold S not Boris J
and that club? Really, can you lift it,
do note the size of my front teeth.

Do you want a hoard of animal loving-lefties
banging on your door, trolling your every tweet
as you seek the King's approval
for succeeding at your first labour.

Be wise Hercules,
on seeing these claws
you might review the clause in your contract.
Tell you what, if you're so brave
just put your head between these gaping jaws,
you won't feel a thing, I can behave.
No good can come from killing lions, let's agree,
you've nine other labours to indulge your killing spree!"

Clint Wastling is the author of Tyrants Rex, a fantasy story (Stairwell Books). His poetry collection Layers is available from Maytree Press.

C CLUB - LIGHTING THE WAY FORWARD

The C Club, located on Wylies Road, Beverley, has a long history of entertaining people. With the staged refurbishments coming to a completion, members and guests alike are enjoying the new look.

Maintaining high standards has been key to the success of the Club. When you walk through the door you are greeted with a warm welcome and experience the relaxing environment.

Over the past few months work has been completed in the snooker area, the members bar and more recently the Churchill Room.

With new decor and showcasing state of the art lighting, the room can deliver the atmosphere to suit the occasion.

The Churchill Room is open for hire and everyone is welcome to view the room and enquire about booking it for a private function, business meeting, training sessions or a variety of parties such as birthday celebrations, wedding or christening functions and more recently inviting a celebration of life "Wake" for those who have passed. The C Club can cater for everyone's requirements.

Having re-established themselves as an entertainment venue putting on great entertainment month on month, the C Club has set out a great line up to run to the year end.

Keith Saunders, Chairman commented, "We welcome new members and hope our entertainment will attract more people to the club, to enjoy and use the facilities we have available".

Raising money for charity, snooker players can get involved with the popular 'Snooker Shoot Out' on 24th June in aid of Macmillan. Contact the club for details on how to get involved.

To complete the C Club, the entertainment line up offers something for everyone. The Concert Room is the jewel in the crown with great lineups to entertain you.

Coming Soon:

Nya King entertaining people as Whitney Houston on Friday 1st July. Tickets £10.00.

Tony Lewis performs as Robbie Williams on Friday 9th September. Tickets £10.00.

Additional dates for the diary, Richie Penrose entertains people on 21st October with a night of Motown.

And always a great night, returning to the C Club, Peter Sarsfield is Frankie Vallie on 2nd December.

For all enquiries, contact Chris Wilkinson during opening hours via email at bccsecretary@hotmail.com or call **01482 867968**.

BEVERLEY AC - FUN RUN AND 10KM

The town celebrated what is considered to be a return to normality with the much awaited Beverley B&A Scaffolding Fun Run and the Pittaway 10km. Not only did the crowds turn out but the weather did it's bit as well, making it almost the perfect day.

1600 runners completed the scenic course, running out through North Bar and over the Westwood before racing along Toll Gavel to the finish in Wednesday Market.

Taking first place was Oliver Newton, from Thames Valley Harriers, finishing in 31:50 with City of Hull runner, Della Hatfield, finishing as first female in 35:51. The first Beverley AC member to finish was Robert Sparkes, finishing 7th in 32:29, with Demi Lidster the first female Beverley AC member, finishing 61st overall and 4th female, in a time of 38:03.

In addition to the 50 runners from the Club who took part in the race, 120 members and friends were located around the course to help marshal and to cheer on all the runners.

Lucas Meagor, Race Director, was delighted with the success of the event and has received some very positive comments.

Lucas commented, "I have received masses of very positive feedback from runners, and I would like to thank everyone, runners and volunteers, for your contribution. We are indebted to our sponsors, Pittaway and B&A Scaffolding, and to East Riding College.

One runner's feedback sums it up perfectly for me - "I just wanted to comment on the excellent organization of today's event. The pre-race information was first-class, the marshaling and organization was excellent, and the involvement of local businesses was exemplary. You even managed to organize some lovely weather! This event reflected huge credit on all concerned and the whole town of Beverley!"

The Club was well represented in the Fun Run as 27 Juniors lined up at the start, with Caleb Proudlove taking first place in 06:49. Beverley girls took all 3 podium places in the girls race with Lois Pottage securing 1st place, Ella Harris-Smith taking 2nd and Indie Proudlove taking 3rd.

Head Coach, Lewis Holloway, commented: "A great day for the Beverley AC Juniors at the Fun Run and 10kms! It was amazing to have so many on the fun run start line and 3 of them running the 10kms. After the fun run, many of the Juniors did a great job giving out fruit and water to the 10kms runners as they finished. The coaches are very proud of them all!"

Don't miss out on the opportunity to join us at our next big event, the Specsavers Walkington 10 kms

and Fun Run, which will take place on Friday 8th July 2022. Starting in Walkington and with a great finish at the playing fields, places for both events are still available and further details on how to secure a place are available on the Club's website. We look forward to seeing you on the start line!

For many of the Club's members, the race weekend also saw them take part in the Beverley Westwood parkrun the day before, as one of the Club's Handicap races and 50 members of the club accepted the challenge to run as fast as they could to try to beat a handicap time known only to the club's handicapper with 11 members recording new personal best times. A special mention to Alan Flint who set a new BWp record in the VM70 age category, finishing in a new PB time of 23:22 which also gave him the highest age grading score of 77%.

Beverley Westwood parkrun (BWp) was celebrating its 75th event which also served as the graduation event for Beverley AC's latest cohort to 5k group and 4 people graduated by running parkrun together and supported by their coaches Patrick Marshall and Fiona Oakes. Congratulations to graduates Andrew Cooper, Paul Davies, Jo Caukwell and Lauren Ibbotson! Also celebrating parkrun milestones were Ken Pearson completing his 100th parkrun and Fiona Oakes completing her 25th.

If you love to run and are interested in becoming a member of the Club, whatever your age or ability, you will receive a warm welcome. If you would like more information and details on how to join, please visit the Club website on www.beverleyathleticclub.co.uk.

BEVERLEY AC JUNIORS - COUNTY CHAMPIONS EMERGE

Beverley AC's Juniors and Seniors competed in the Humber/Lincoln County T & F Championships over two days last month held at Costello Stadium, Hull and Boston, Lincolnshire.

Two county champions emerged on day one.

Firstly, James Johnson was a clear winner in the senior men's 5k in a personal best time, which also featured Lewis Holloway (pb over-50) and Tom Jorna (senior men) who ran really strongly in an event new to them both.

Lois Pottage never looked in danger and dominated the under-13 girls' 800m from gun to tape, enhancing her growing reputation as an extremely exciting prospect over the distance. In the same heats, Orlaith Meilhan and Holly Ellington-Runkee ran really strongly in their respective heats coming away with very quick times.

In a very competitive under-15's girls 800m heats,

Meisha Lamvohee, Ella Harris-Smith and Millie Berry all ran to personal bests with the former qualifying for the final and finishing in a creditable fifth place.

Jacob Jorna and his brother Freddie, both excelled in their respective age groups at 800m, both claiming personal bests in very strong races. Alfie Ryan managed a creditable third in the under-15 boys.

Meanwhile, in the shot putt, Florence Green showed what a versatile athlete she is, by claiming the silver medal and then moving on to bag two more medals in the 80m hurdles and 200m.

In the under-17's boys' sprints, Corey Pottage showed what an exciting prospect he is by claiming two silver medals in the 100m and 200m over both days. Having taken up sprinting only a few months ago, the future looks really bright for this talented youngster.

Also in the 200m, Harriet Fletcher ran superbly to

a new personal best and managed to qualify for the final, where she equipped herself well against the best sprinters in the county.

In competition the Juniors, who have only been in serious training for a few months are just getting better relishing the stiff competition over the upcoming season.

Lois Pottage, under-13 800m county champion.

Bev 'N' Ley - A Day For Fit For A Dad

Daylight spills around the curtains of their home in Market Cross. Ley sighs and hides under a pillow to block out the light. Outside, laughter ripples through the square and soft music drifts on the warm evening breeze.

"Are you still awake?" Bev wants to know, hearing the blue beaver fidget restlessly. "Yes." Ley says and pulls the curtain aside; the beaver's nose twitches with anticipation. The square is full of people in smart clothes enjoying the evening.

"Happy Father's Day!" a man shouts, hugging his dad and they share a drink together. Pushing away from the window, Ley asks, "Is Father's Day a special day too?"

"Yes. It's a chance for fathers to spend time with their family."

"Do they get chocolate and flowers, too?"

Bev smiles and remembers Ley's questions about Mother's Day. Ley's curiosity would not rest yet. "Some do. Others get treats to see a race or go for bike rides or walks. It's about showing appreciation."

Ley considers Bev's answer. "So you're a bit like a father too, aren't you?"

"Mums and Dads do a lot of the same things. So do grandmas and grandads, and even teachers. You don't have to be a mum or a dad to care for and help people grow."

"You do a lot of that, Bev." Ley huffs with impatience and stands. "It's too bright, and people are having fun without me."

Bev smooths the bed. "That's because the Earth is closer to the sun in summer. The longest day is called the summer solstice."

"Well, if the days are longer," Ley begins with a cheeky grin, "then we should be outside enjoying it." Bev chuckles, "All right. Let's go for a walk." Ley pulls a face, but Bev leads Ley to a bubbling spring nestled behind a school.

Ley scampers up a signpost. "Bev! We're famous!" "Are we?" Bev asks, finding it hard to hide a smile at Ley's glee. "They have a trail just for us!" Ley taps the signpost marked Beaver Trail. "Let's follow it."

The birds sing loudly, and a butterfly flits past.

"Listen. Can you hear the woodpecker?" Bev asks, as Ley discovers a tree fallen over the stream. "No, but look at this!" The pair balance their way over its old trunk. Bev points out the damselflies and the flowers they pass. As they return home, Ley's legs ache. "I think the sun is as tired as I am now. It's going to bed."

"The sun is wise. We should too."

"Only if I can go on another walk tomorrow."

Bev smiles gently and tucks the blanket around Ley. "Perhaps you can find the other two Beaver Trails, then?" Ley didn't answer. The beaver was already asleep.

WILSON WHEELS - ENJOYING THE LONGER DAYLIGHT

June welcomes everyone to the start of summer Tuesday 21st June Longest Day, any cyclist will appreciate the longer hours of daylight.

As families look towards the summer holidays, it is now time to check the bikes over and prepare for safe cycling.

All road users have had to become familiar with the new highway code changes giving priority to pedestrians crossing roads and cyclists position on roads, keeping everyone safer. If everyone respects the other the road will be a safer place.

Cyclists using the roads ensure you can be seen, wear something bright, wear the appropriate

protective clothing, helmet, gloves etc. as important if you are going for a longer ride ensure you have enough fluids to drink and appropriate snacks to fuel you.

For further guidance and advice, to get your bike up to speed pop in to Wilson Wheels for all your needs.

CARFAN IS BACK WITH A RARE BEAST!

The subject of this issue is a rare beast indeed, so rare in fact that it is a "One of one", being the only Rolls Royce known to have been built by Knibbs.

Known as a 25/30 and produced in 1938, this beautiful machine comes from an era when Rolls Royce built a chassis to the desired specification and the customer was able to have a body built by the coachbuilder of their choice.

Having owned it for the last eleven years, the current owner is certainly not afraid to use it, adding around four to five thousand miles a year to the odometer, including trips abroad.

During this time the car has benefited from a new hood and has been restored to its original colour.

A complete engine rebuild took sixteen months to do and surprisingly enough for a vehicle of such

age, parts are relatively easy to obtain, often with next day delivery. The manifold is one such example, albeit costing £600, so perhaps deep pockets are needed here for ownership. This car has an interesting history too - it was used as a pace car at Donnington race track, as a hearse for a previous owner and was hidden in world war 2 to prevent it being used.

Eagle-eyed readers may have noticed that this particular model has a kneeling Spirit of ecstasy radiator mascot as opposed to the usual standing up version. Putting a value on a car like this is virtually impossible and if it ever comes up for sale it is a classic example of an auction sale where the market will decide.

So don't forget, should you be in the right place at the right time and spot this beauty, don't forget that cheery Carfan wave!

TRAVEL COUNSELLORS - BEYOND EXPECTATIONS

I was recently privileged to have been invited to experience the brand new Edge Class ship by Celebrity Cruises - "Beyond" - before she embarked on her maiden voyage from Southampton on the 27th of April 2022.

I personally had not sailed with Celebrity Cruises before despite it being a popular choice for my clients. My clients have always been so impressed with the service and the quality of the food.

Knowing this was a 5 star vessel, I expected a quality product however I was truly blown away by the design and the service and the culinary delights. It was literally beyond expectations. The design was simply beautiful and despite that we sailed in British waters not far from the port of Southampton you had a feel of being somewhere Mediterranean.

Our accommodation was an Edge Verandah stateroom which is a brand new design for Celebrity Cruises, offering an infinite verandah with a French balcony.

The glass window lowers to half way at the simple touch of a button. It provided a king size bed and a living area in addition to the seating on the French balcony area so was a very bright and spacious option. Whilst I resided in this cabin I took the opportunity to view various different categories.

For those requiring adapted cabins the design was brilliant with special enhancements that will make all the difference to your experience. I particularly liked the edge villas at sea - two storey residences with one bedroom and two full bathrooms. It sleeps 4 with its very own plunge pool on the balcony.

If you have some cash to splash, the Iconic Suites and Penthouse Suites are huge and here you can enjoy your own very large kitchen dining area and living room - they have to be seen to be believed.

I mentioned the excellent reputation that Celebrity Cruises have for their food and beverage offering. Beyond offers 32 food and beverage venues including 8 specialty restaurants.

The food is exquisite and beautifully crafted by Michelin star chef Cornelius Gallagher. I have to say the flavour was out of this world and all my food choices tasted incredible.

In summary, certainly 5 stars with an incredible amount of choice of accommodation, outstanding

food and beverage venues, a wonderful swimming pool area, a modern and spacious children and teen zone, gym and spa offering. Whilst it's a large ship it is designed in such a way that it never feels busy and crowded.

It truly was beyond my expectations and two nights was a wonderful taster and I certainly will be going back for more! If you would like to discuss cruising the Celebrity way please do get in touch.

COUNTRYSIDE MATTERS WITH SAM WALTON

Who would want to be a farmer? I have been involved physically for 70 years and have never known such uncertain times. Things are changing as people say and I am not sure if they are for the best.

To provide the public with cheap food, farming has received a subsidy for many years but that is now changing.

It will disappear over the next three years at an alarming rate, so that will either ruin farmers or the public will have to pay more, or heaven forbid, the Supermarkets will have to cut some of their profits.

The thing is we do not know what is going to happen. The Ukraine

situation has had a huge effect on lots of people and on the World food market.

I remember going to the Ukraine about 15 years or more ago, accompanying some of our top-notch breeding pigs and seeing some unbelievable crops. It is only now that people are aware of how much the world relied on the Ukraine for food.

With inflation set to increase living standards are going to be seriously affected. Food is usually the first thing people cut back on these days, whereas when I was a lad, food was the most important item in the lifestyle. Currently prices for cereals have never been higher but neither has the cost of production and, will all this continue?

Things could change next year but too late for some. Hopefully as we move towards Autumn we will have more answers than questions, let's keep our fingers crossed.

WHAT IS IT?
A radiator

WHERE IN BEVERLEY?
The feet are in Walkergate

IN THE GARDEN... JUNE

June in the garden is normally the month when we can relax a little as all the hard work should have been done earlier in the year. However, if you have been part of 'No mow May' - you may want to tidy the lawn up before you host your 'Jubilee Garden Party.'

'No mow May' is a where you don't cut the lawn for the month of May to encourage pollinators and more plant species into your garden - yes, I know you may get Buttercups, Dandelions and Daisies but they will provide valuable nectar for the pollinators and can look very attractive (think Beverley Westwood and its Buttercups).

When you start mowing the lawn again don't cut it too short, if we have a dry spell the lawn will go brown if you do; try and increase the length of time between cuts and if you can leave an area uncut and let go wild.

Tasks for June...

- Mow the lawn.
- Keep a look out for pest, particularly on roses and lush green shoots.
- Keep on top of weeds.
- Tidy up/lift any remaining spring flowering bulbs.
- Lift and divide daffodils - especially if they have been in the same place for a long time. Daffodils can become crowded and over time stop producing flowers (this is called coming up blind).

• **WATERING PLANTS** - due to a combination of longer days, drier/sunnier days, and the rate at which plants 'drink' water, you will need to water the garden. Newly planted plants, young vegetables and plants in containers will need watering most. Watering should be done thoroughly - ideally either early in the morning or in the evening.

Hanging baskets and small containers should be watered daily and fed with a liquid feed once a week. If you have large areas in the garden to water do not try and water the whole area by splashing a bit of water on daily, split the garden into areas and give each a 'good soak' which should last up to a week.

Don't be fooled by heavy thundery downpours - often most of the rain 'runs off' and does not enter the soil.

• Feed plants in containers with a water-soluble feed - this can be done every time you water and certainly once a week.

• **DEADHEADING** (removing flowers as they fade) - this is an important task which needs doing regularly. Deadheading will extend the flowering period, by diverting the plants' energy from producing seeds into new growth and flowers. To deadhead cut back to just above a bud lower down the stem of the plant using secateurs or garden snips.

Here's hoping we have pleasant weather for the 'Jubilee Weekend,' and able to enjoy our gardens with family and friends, J.

Jane Dale of 'Designed Gardens'. Tel: **07983 392 411**.
